THE REALVIEW TV DIFFERENCE.

Realview TV utilizes the highest quality HD production, 3D-animation technology and online streaming, to create high-impact narrated videos, virtual tours, interactive maps and call-to-action features that deliver increased awareness and conversion.

- Realview TV videos receive over 1 million views per year
- Each year, Realview TV streams over 50 million seconds of video
- The average watch time of a Realview TV video is almost 72 seconds (*industry average is 26 seconds*)

SOLUTIONS THAT WORK.

Does it work? You bet. Check out just a few of the institutions who have seen real results from partnering with Realview TV:

- Agnes Scott College – This recipient of multiple awards has been viewed by over 150,000 people, had 42 prospective students “schedule a visit” in one month and had their largest enrollment class after the launch of the virtual campus experience.
- American University – One of the most watched experiences averaging 20,000 views per month and 9 million seconds streamed. They increased international student enrollment because of the virtual tour.
- Rowan University – In search of a “wow” factor for the admission’s homepage, Realview TV developed a distinctive experience to enhance recruiting, resulting in an average of 13,000 views per month!
- Atlanta Christian College – This small, Christian college in East Point, GA focused on the people of ACC to tell their story. Their high-quality videos garner a 92 second average watch time.
- Georgia Tech - This virtual tour helped increase premium seating ticket sales at world famous Bobby Dodd Stadium and most recently the videos have gone viral gaining them even more exposure.
- St. Pius X Catholic High School – This campaign promoted their 50th anniversary and a capital campaign for a new building and extension of campus. The campaign was a success helping to raise over \$6 million.
